

Project Proposal

D2C E-Commerce Platform for Snactivate

Prepared by Esscentra | July 2, 2026

Prepared for	Snactivate
Prepared by	Esscentra
Contact	fohatofficial@gmail.com
Date	July 2, 2026
Validity	30 days from date of issue

Executive Summary

Snactivate is not just launching a website — it is launching a direct-to-consumer (D2C) brand. This proposal covers the end-to-end design and development of a complete, production-ready e-commerce platform: a fast, mobile-first customer storefront, a full-featured admin panel, and integrations for payments, shipping, email, and analytics. The platform will be custom-built on a modern stack (Next.js, Node.js), giving Snactivate full ownership of its code, data, and customer relationships — with no recurring platform fees or per-transaction lock-in.

Recommended engagement: **Standard package at ₹2,00,000**, delivered in **8 weeks**, including 30 days of free post-launch bug fixes.

Scope of Work

1. Customer Website

- Responsive landing page with brand-led design
- Product catalog with search, filters, and category navigation
- Product detail pages with image galleries
- Cart, wishlist, and secure checkout with coupon support
- User accounts with order history and order tracking
- Reviews & ratings, newsletter signup, FAQ, blog, and contact page

2. Admin Panel

- Dashboard with sales and traffic analytics
- Product, category, and inventory management
- Order management and fulfilment workflow
- Customer management and email subscriber lists
- Coupon and banner management
- Reviews moderation

3. Integrations

- Payment gateway: Razorpay (or Stripe)
- Shipping provider integration with tracking
- Transactional email service; SMS/WhatsApp notifications (optional)
- Google Analytics, Search Console, and full on-page SEO optimization

4. Technology Stack

Layer	Technology
Frontend	Next.js + React + Tailwind CSS
Backend	Node.js + Express
Database	MongoDB or PostgreSQL
Authentication	JWT
Media storage	Cloudinary or AWS S3
Payments	Razorpay (India) / Stripe
Deployment	Vercel + Render/AWS

Timeline & Effort Estimate

Module	Estimated Time
UI/UX Design (all pages)	1-2 weeks
Frontend (React/Next.js)	2-3 weeks
Backend APIs	2 weeks
Admin Dashboard	1-2 weeks
Authentication	2-3 days
Product & Inventory Management	3-4 days
Cart & Checkout	3-4 days
Payment Gateway (Razorpay/Stripe)	2-3 days
Order Management	4-5 days
Shipping Integration	2-3 days
Newsletter & Email	2 days
Reviews & Ratings	2 days
SEO & Performance	3 days
Testing & Deployment	1 week

Total delivery timeline: 8 weeks (single experienced full-stack developer: 8-10 weeks; with a dedicated designer and second developer: 5-6 weeks). Modules overlap, so the total is shorter than the sum of individual estimates.

Investment

Package	Price (INR)
Basic D2C Store	₹80,000 – ₹1,20,000
Standard (recommended)	₹1,50,000 – ₹2,25,000
Premium (custom animations, advanced analytics, marketing features)	₹2,50,000 – ₹4,00,000+

Recommended Engagement

Item	Detail
Package	Standard
Project fee	₹2,00,000 (fixed)

Item	Detail
Timeline	8 weeks from advance payment
Post-launch support	30 days of free bug fixes

Payment Schedule

Milestone	Share	Amount
Advance (project kickoff)	40%	₹80,000
Development milestone (staging demo)	40%	₹80,000
Final delivery & launch	20%	₹40,000

Terms & Conditions

- **Inclusions:** everything listed under Scope of Work, plus 30 days of free bug fixes after launch.
- **Exclusions (billed separately):** future feature additions, ongoing maintenance, hosting, domain, and third-party service fees (payment gateway charges, SMS/email provider costs, etc.).
- **Revisions:** up to two rounds of design revisions per page during the design phase.
- **Content:** product data, images, and brand copy to be supplied by Snactivate; Esscentra will assist with structure and placement.
- **Ownership:** full source code and IP transfer to Snactivate upon final payment.
- **Scope changes:** requests outside the agreed scope will be estimated and quoted before work begins.
- **Validity:** this quotation is valid for 30 days from the date of issue.

Why Esscentra

- Custom-built, not a template — the platform is tailored to Snactivate's brand and growth plans.
- No platform lock-in or per-transaction fees; you own the code and the customer data.
- Modern, SEO-first stack that scores well on Core Web Vitals out of the box.
- A single accountable partner across design, development, integration, and launch.

Next Steps

- Review and confirm the package and scope.
- Sign off on this proposal and pay the 40% advance (₹80,000).
- Kickoff call to lock branding direction, product catalog structure, and integration accounts.
- Design previews within the first 2 weeks; staging demo at the development milestone.
